OBJECTIVE

Expertise in HTML, CSS, JavaScript, Vue js framework(Nuxt.js), React.js, Node.js, Express, and MongoDB, focused on building end-to-end web applications with seamless front-end and back-end integration and a strong foundation in Data Structures and Algorithms and OOPs principles.

Programming Languages	Java, SQL
Frontend Technologies	HTML5, CSS3,Nuxt.js, React.js, JavaScript, TypeScript
Backend Technologies	Node.js, Express.js
Database	Postgres SQL, MongoDB
Version Control System	Git, GitHub

EDUCATION

University of Engineering and Management	September 2021 - May 2025
Bachelor of Technology in Computer Science	(8.11 cgpa)

PROJECTS

Kamla Enterprise – Business Website for a Local Hardware Shop

- **Tech Stack:** Nuxt.js, TypeScript, Tailwind CSS, HTML
- Developed a modern, responsive business website using **Nuxt.js with TypeScript** and **Tailwind CSS**, tailored for a hardware shop to enhance its digital presence.
- Enabled the shop owner to easily promote products by sharing a website link, replacing the need for physical advertisements or invitation cards.
- Designed an intuitive, mobile-friendly interface that improved customer experience and accessibility.
- Received strong client appreciation for delivering a unique, easy-to-use, and business-enhancing solution.

BookVive

- **Tech Stack-** HTML CSS I JavaScript | Node.Js |React.JS| MongoDB
- Developed a full-stack bookstore website using the MERN stack, including user authentication, book management, and search functionality. Gained hands-on experience with MongoDB, Express.js, React, Node.js, and deployment processes
- Integrated a seamless user experience with responsive design and dynamic rendering, ensuring efficient book browsing, previewing, and checkout processes.

Portfolio Website

- Built a **personal portfolio website** to showcase academic qualifications and projects.
- Strengthened JavaScript skills by implementing interactive elements and dynamic content rendering.
- Ensured **responsive design** for seamless access across different platforms.

EXPERIENCE

The Complete 2024 Web Development Bootcamp Udemy	Aug 2024 - Dec 2024
<ul style="list-style-type: none">• Completed a comprehensive 2024 Udemy Web Development Bootcamp covering MERN stack, Web3 basics, and full-stack project development, including HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, and more.• Built and deployed a bookstore website integrating MongoDB, Node.js, EJS, and React.js, implementing features such as user authentication, book previews, and seamless navigation between server-side and client-side rendering.• Designed and developed a hospitality management system focusing on efficient resource allocation, user-friendly interfaces, and robust database management using MERN stack technologies.
