OBJECTIVE

Expertise in HTML, CSS, JavaScript, React.js, Node.js, Express, and MongoDB, focused on building end-to-end web applications with seamless front-end and back-end integration and a strong foundation in Data Structures and Algorithms.

Programming Languages	Java, SQL, JavaScript
Frontend Technologies	HTML5, CSS3,JavaScript, React.js
Backend Technologies	Node.js, Express.js
Database	Postgres SQL, MongoDB
Version Control System	Git, GitHub

EDUCATION

University of Engineering and Management	September 2021 - May 2025
Bachelor of Technology in Computer Science	(8.11 cgpa)

PROJECTS

BookVive
- **Tech Stac**k- HTML CSS I JS | NODE.JS |React.JS| MongoDB
- Developed a full-stack bookstore website using the MERN stack, including user authentication, book management, and search functionality. Gained hands-on experience with MongoDB, Express.js, React, Node.js, and deployment processes
- Integrated a seamless user experience with responsive design and dynamic rendering, ensuring efficient book browsing, previewing, and checkout processes.

Portfolio Website
- Built a **personal portfolio website** to showcase academic qualifications and projects.
- Strengthened JavaScript skills by implementing interactive elements and dynamic content rendering.
- Ensured **responsive design** for seamless access across different platforms.

AI Code Checker
- **Tech Stack** – HTML | CSS | JavaScript | Node.js | React.js | MongoDB | Gemini AI API
- Developed a full-stack AI-powered code evaluation platform using the MERN stack, integrating **Google Gemini AI API** to analyze and provide feedback on code correctness, errors, and improvements.
- Implemented real-time syntax analysis, error detection, and AI-powered suggestions to enhance coding accuracy and efficiency.
- Designed an intuitive, responsive user interface with dynamic rendering for seamless interaction.
- Gained experience in AI API integration, backend logic for automated evaluation, and deployment processes.

EXPERIENCE

**The Complete 2024 Web Development Bootcamp	Udemy**	Aug 2024 - Dec 2024

- Completed a comprehensive 2024 Udemy Web Development Bootcamp covering MERN stack, Web3 basics, and full-stack project development, including HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, and more.
- Built and deployed a bookstore website integrating MongoDB, Node.js, EJS, and React.js, implementing features such as user authentication, book previews, and seamless navigation between server-side and client-side rendering.
- Designed and developed a hospitality management system focusing on efficient resource allocation, user-friendly interfaces, and robust database management using MERN stack technologies.

CERTIFICATIONS

- **The complete web development bootcamp by Angela U** (Udemy)
- **AWS Cloud Technical Essentials** (Coursera)

POSITIONS OF Responsibility

Campus Ambassador at AAKAAR, IIT Bombay	Dec-2021

Acted as a representative of AAKAAR, IIT Bombay, at the University of Engineering & Management, New Town, fostering student engagement with the event.

Promoted AAKAAR's initiatives and events through campus outreach and communication strategies, enhancing peer participation and visibility.

HOBBIES AND INTEREST

- Gymnasium, Reading Books, Cycling
